

# Wave Provider

## Crew/Cargo Support Vessel

### Hull Form

The Wave Provider is an aluminium alloy asymmetric catamaran based upon the highly successful 'Wave Train' hull form which has fine forward sections developing into a medium deadrise single chine hull form aft. The Wave Provider is a fast, robust, all-weather craft designed to carry passengers at high speed and in comfort. It is powered by twin diesels and waterjets which give it excellent manoeuvrability and it has a large flush deck aft for cargo handling. The boat can be tailored to suit individual customer needs with regard to propulsion, wheelhouse and upper deck arrangements.

Principal Dimensions	1400	1600
Length overall:	14.8m	16.9m
Beam overall:	5.0m	5.0m
Displacement (light):	12.0t	13.0t
Draft (light):	0.5m	0.6m
Speed (light):	22kts	22kts
Payload:	15.0t	20.0t

### Main Features

- Port and starboard 500 litre fuel tanks
- Reinforced cargo deck
- 9 tonne knuckle boom crane
- Substantial perimeter fendering
- Seating for three crew and 12–20 passengers
- Comprehensive navigation and communications package

### Main Equipment

- 2 x 350–500bhp marine diesel engines
- 2 x 274–322 waterjets

### Certification

- Lloyds Hull Structure Certificate
- MCA Workboat Standards
